

# Ben Chudyk

*Graphic Design*

This portfolio is a quick view of some of the work I've had the opportunity to work on. I've had the chance to work on lots of exciting projects and have had a lot of fun, but that's easy when you enjoy your job.

**Radial Engineering**

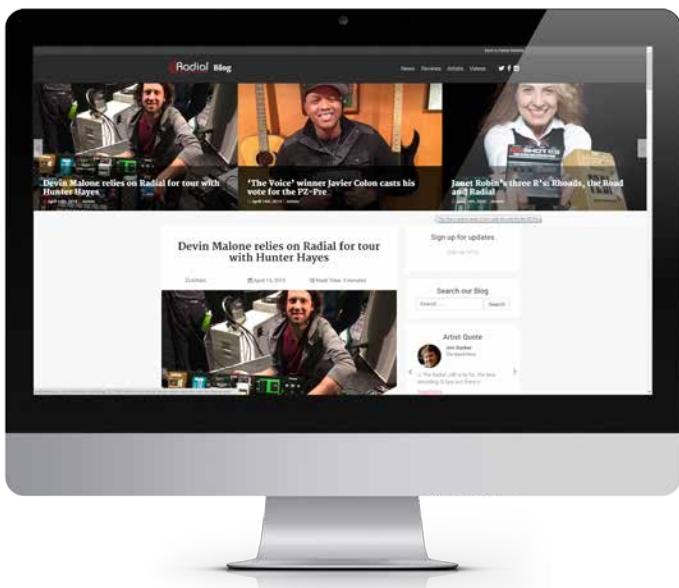

**Graphic Design**

Worked with a small marketing team to not only maintain current products but also constantly launch new products. I redesigned several sites as well as created marketing material for sales staff. This included product photography, graphic design, web design, technical writing and web marketing.

# Hafler®

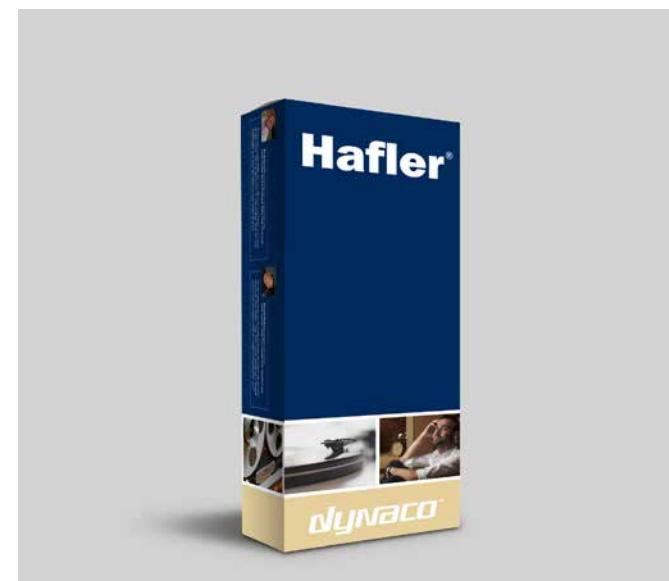

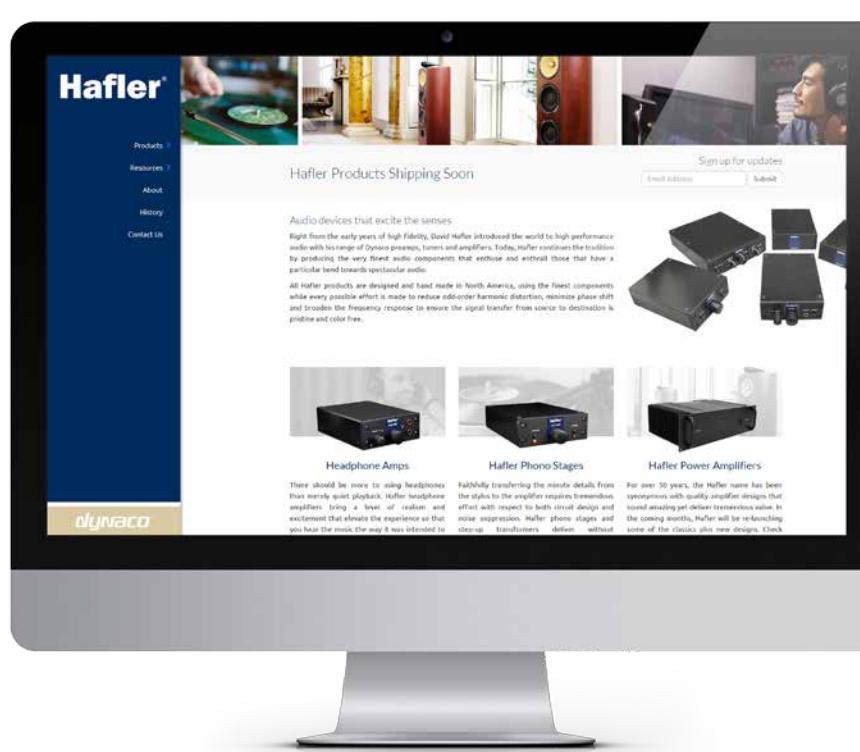

Hafler  
.....

## Branding | Web

New company needing a revamp. The company has a strong legacy of hifi sound that needed a new design to match the products and appeal to enthusiasts. I designed and developed a responsive html design, marketing materials and product packaging to support the brand.

[www.hafler.com](http://www.hafler.com)

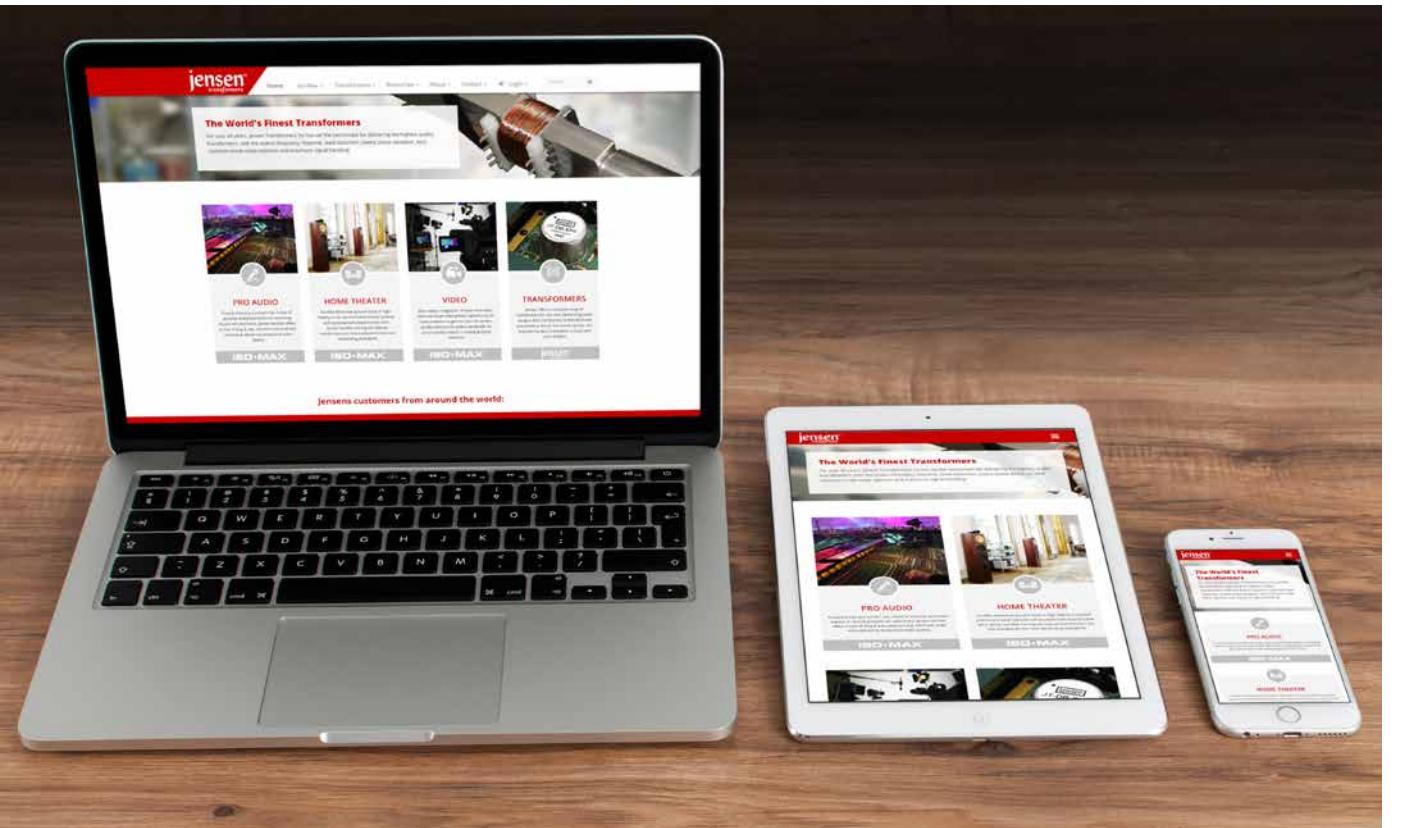

Jensen  
.....

## Branding | Web | Print

Jensen Transformers is known as the best audio transformers in the world. I designed and helped develop the new site with wordpress and bootstrap. All products needed supporting data sheets and new promotion materials.

## Athenry Gate 2011

### Branding | Web | Print

A Langley condo development with an "Old World Charm". This was an exciting project to work on from the early stages to completion. I worked with the marketing manager to develop a brand that matched their Irish heritage that was still eye catching to young families.

Yokohama 2010

### *Design | Wrap*

While at FASTSIGNS I had the opportunity to design and install vinyl wraps on two performance cars. Their ADVAN racing brand has specific design standards and pantones that must be followed, however each design was custom made to fit the vehicles.

Every Donation of \$10 or more will receive a charitable tax donation receipt and 100% of your gift goes directly to Uganda.

**JOIN THE KIBAALE WALK**  
United for Hope

TOP | ABOUT | RECENT STORIES | VOTE & WALK | HELP TODAY

**ABOUT**

Every Step Counts! Please plan to join us on April 27 as we walk 5k, beginning at the fountain on our campus, winding through the neighborhood and finishing back at PA. The funds raised through this year's Kibaale Walk will go toward the overall well-being of our Kibaale Community and will help to support our educational, medical and agricultural programs, which have given desperately needy families and individuals hope for the future.

**Langley Bypass area Security Solution**

**Proven History of Service and Results on the Langley Bypass**

- Marked mobile security patrol vehicle
- Prompt alarm response & reporting
- Video install, monitoring & verification
- Hidden surveillance where needed
- Door, gate & service bay checks
- Barcode GPS scan reports available
- Customer service specialists

The most **modern** & **innovative** patrol technology in the area

There has been interest to form a member founded program for a mobile patrol designated for the Langley Bypass area. Apple Security is set to be a unified security solution that includes an integrated mobile patrol unit and a static unit. We will have random hidden security surveillance teams to identify the needs of the area and a rapid alarm response unit will always be available in the area evenings and weekends.

Ken has been in the security business for 25+ years, managing one of the largest mobile security patrol units, including this exact security solution on the Langley Bypass area. Joining with Steve, Jamie and the team at Apple Security of around 100 guards and technology experts, we are committed to protect your sites through this unified approach through a network of shared costs.

Call us to discuss:

## Logo Design

### Design

These are some examples of my favourite logos I've designed over the years. I try to convey the clearest message with the simplest design. Bakerview is a logo that sadly never got used for a project but it is my all time favourite with a face hidden in the mountain.

Apple Security
